MATH WIZARDS

OBJECTIVES: At the end of the course, students will be able to:

1. familiarize mathematical terminologies associated in a specific topic in math
2. recognize advance concepts in mathematics
3. solve mathematical problems correctly and neatly
4. demonstrate mastery of the content of a specific lesson.

THE PROCESS OF IMPLEMENTATION:

1. check student's ability by taking a test
2. students must produce an output at the end of each session
3. follow – up student's progress regularly
4. student's will present/demonstrate a certain topic in math.

MEASUREMENT AND EVALUATION:

1. student's will solve the given worksheets
2. student's will present their work through presentation
3. students will make a model or manipulative
4. student's will produce a portfolio at the end of the course.

EXPECTED RESULTS:

1. student's have insights regarding math concept
2. student's are ready to compete with others in the field of mathematics
3. student's will enjoy the subject mathematics.
